Welcome to ISTT

The International Society for Trenchless Technology (ISTT) plays a pivotal role in promoting trenchless technologies worldwide, fostering innovation and collaboration among industry professionals and stakeholders.

The International Society for Trenchless Technology (ISTT) was established in September 1986 as a United Kingdom private limited company with the object **"to advance the science and practice of trenchless technology for the public benefit..."** and **"to promote education, training, study and research in the said science and practice for the public benefit, and to publish the useful results of the same."** In the years that followed, ISTT affiliated with regional trenchless societies located throughout the world to advance these objectives globally.

ISTT has 28 [Affiliated Societies](#). All recorded members of an Affiliated Society are members of ISTT. In addition to Affiliated Society members, ISTT has a limited number of direct members who reside in regions where no Affiliate Society exists.

Vision and Mission

ALIGNING OUR VISION WITH STRATEGIC GOALS

The ISTT's strategic plan is vital for **guiding ISTT** toward achieving its mission. By aligning our vision, we ensure focused efforts and enhanced outcomes, benefiting our members and stakeholders.

Vision

Leading trenchless technology throughout the world
We are the global connection for trenchless technology

Mission

Influence and support industry worldwide to realise the benefits of trenchless technology.
Advocate trenchless as the standard method for underground infrastructure

Key Values

Connecting trenchless across the world

The ISTTT will promote the advancement of trenchless technology worldwide by being:

Ethical
Innovative
Visionary
Impartial
Inclusive

Key Values

Connecting trenchless across the world

I wish you all a great and
successful Event.

Thank you!
